# COMPETENCY DOMAINS

There are seven different content areas, or domains, in the Colorado Competencies for Early Childhood Educators and Professionals. These domains together describe the knowledge and skills that early childhood educators need to work effectively with children, birth through age eight, and their families. Continuing education, including college classes, professional development courses, and training events, help professionals to increase their knowledge and skills within the competencies. Throughout the competencies, there is an increased focus on cultural competence and inclusion of all children.

**The seven domains in Colorado's Competencies for Early Childhood Educators and Professionals include:**

- ◆ Child Growth, Development, and Learning (CGDL)
- ◆ Child Observation and Assessment (COA)
- ◆ Family and Community Partnerships (FCP)
- ◆ Social-Emotional Health and Development Promotion (SEHD)
- ◆ Health, Safety, and Nutrition (HSN)
- ◆ Professional Practice (PP)
- ◆ Teaching Practice (TP)

As you pursue your professional development and educational goals, please contact our Foundations staff if you need additional assistance.

# TRAINING DESCRIPTIONS

To help you find training appropriate for you, we've added a new "audience" column that identifies if the training is suited for Family Child Care Providers (FCCP), Center-Based Providers (Centers), or ALL.
