

# HEALTH + SAFETY GUIDELINES

## HEALTH + SAFETY POLICY | IN-PERSON TRAINING

Joint Initiatives (JI)/Foundations has developed the following health and safety guidelines for staff and guests. In an effort to take every precaution and prioritize health and safety, JI/Foundations has put in place the following guidelines for all training, meetings, and professional development conducted in person.

## DETAILS

1. JI/Foundations will take additional preventive measures regarding the room environment and will have available Lysol wipes for the trainer to ensure surfaces have been wiped down prior to and after class. Hand Sanitizer will be offered. We will also ask trainers to ensure sanitizing materials are made available throughout class. (Supplies provided will be dependent upon store availability.)
2. Refreshments offered to avoid any contamination will be dependent on training and/or the trainer.
3. Finally, PLEASE ensure you, as a participant, are following health and safety guidelines (provided by El Paso County Public Health):
  - a. Anyone who is sick (e.g., respiratory illness symptoms and/or fever) or living with sick individuals, stay home and notify the trainer. A Zoom link may be offered, but this will be coordinated and verified with each trainer and training.
  - b. Clean hands frequently with soap and water or alcohol-based hand rub.
  - c. Avoid close contact with anyone with cold or flu-like symptoms.
  - d. Cover your nose and mouth when coughing and sneezing.
  - e. Get an annual flu vaccine if you have not had one, to provide protection against the flu.
